Chinese Bilingual Programme

*Three Inspiring Programmes.
One Caring Community.*

Why choose the CBP:

- The CBP is taught in English and Chinese and promotes academic bilingualism and biliteracy proficiency.
- Each homeroom teacher is skilled in the delivery of inquiry-focused lessons as part of the International Baccalaureate Primary Years Programme. The specialist subjects of Music, Visual Arts, and Physical Education are delivered in English.
- Our Mandarin-speaking specialist teachers work closely with homeroom teachers to deliver both units of inquiry with a Science and Social Studies focus as well as Mandarin language and literature.
- Students in the CBP will spend 40% of their instruction time in Mandarin while the other 60% will be in English.
- Under the PYP Framework, Chinese language & Literature will follow the national curriculum and uses the same textbooks that are used in Chinese public schools.
